## Ariana Grande, Give It Up (feat. Elizabeth Gillies)

Liz:

Someday I'll let you in Treat you right Drive you out of your mind

Ari:

You never met a chick like me Burnt so bright I'm gonna make you blind

Both:

Always want What you can't have But is it so bad If you don't get what you wanted

Make you feel good As I'm with you Let me shape you Boy let's get it started

Give it up You can't win Cause I know Where you've been Such a shame You don't put up a fight

It's a game
That we play
At the end of the night
It's the same old story
But you never get it right
Give it up

Come a little closer baby, baby Come a little closer Come a little closer baby, baby

Liz:

So stop trying to walk away No you won't never leave me behind

Ari:

You better belive that I'm here to stay Cause you're the shade and I'm the sunshine

Both:

Look at me boy Cause I got you Where I want you Isn't it so exciting?

Wanna shake you Wanna break you Take the back seat boy Cause now I'm driving

Give it up You can't win Cause I know Where you've been Such a shame You don't put up a fight It's a game
That we play
At the end of the night
It's the same old story
But you never get it right
Give it up

Come a little closer Come a little closer baby, baby /x3

Yeah you are my baby And I'll make you crazy tonight

Look at me boy Cause I got you Where I want you Isn't it so exciting?

Wanna shake you Wanna break you Take the back seat boy Cause now I'm driving

Give it up You can't win Cause I know Where you've been Such a shame You don't put up a fight

It's a game
That we play
At the end of the night
It's the same old story
But you never get it right
Give it up
