

# Armin van Buuren & Garibay, I Need You (feat. O

She walks all late at night  
As she says her goodbyes  
She's close to sacrifice  
She knows something ain't right

It ain't easy and it ain't pleasing  
She's just tryna find a way out there  
She put out faith in  
You know it's chasing  
She's just tryna find her love out there  
And she cries

I need you  
Like a wave needs the ocean  
Like the love needs devotion  
I need you  
Like the desert bleeds the water  
Like a mission needs a model  
I need you  
Every minute, every hour  
I lay broken like a flower  
Cuz I need you  
I need you!

She's lost her way of life Feels like a hole inside  
She wants to feel alive  
And nothing satisfies

It ain't easy and it ain't pleasing  
She's just tryna find a way out there  
She put out faith in  
You know it's chasing  
She's just tryna find her love out there  
And she cries

I need you  
Like a wave needs the ocean  
Like the love needs devotion  
I need you  
Like the desert bleeds the water  
Like a mission needs a model  
I need you  
Every minute, every hour  
I lay broken like a flower  
Cuz I need you  
I need you!
