

# Ashley Tisdale, Love Me & Let Me Go

I am feeling lights out  
u am feeling shut down  
and when I speak up, nothing wanna come out  
I been chain up to  
I been chain up to  
my mind  
I am tryna wake yup  
and find a new love  
and tell the old me that I;ve had enough  
tryna leave it all  
leave it all behind

I've been looking for the nightlight switch  
I've been feeling like I'm over it  
When feelings control me, they ain't gonna hold me back

let me and let me go  
let me and let me go  
let me and let me go  
walk away, finale let me breathe  
stop being so absessed with me  
let me and let me go  
let me and let me go

let me go  
let me go  
let me go  
let me go  
let me go  
let me go  
let me go  
let me go

thank you for the bad Times and the land mines  
and them feelings that came like landslides  
running down my mind  
running down my mind each night  
thank you for the dark days and the tidal waves  
making real life so sideways  
really been a wild  
really been a wild, wild ride

I've been looking for the nightlight switch  
I've been feeling like I'm over it  
When feelings control me, they ain't gonna hold me back

let me and let me go  
let me and let me go  
let me and let me go  
walk away, finale let me breathe  
stop being so absessed with me  
let me and let me go  
let me and let me go

let me go  
let me go  
let me go  
let me go  
let me go  
let me go  
let me go  
let me go
