

# Avalon, Black Hole Wisdom

I ask for attention  
I feel the apprehension  
And I get no answer

Felt like I was decaying  
Devoutly started praying  
Let my evil die

I obtain no reunion  
It seems you can't forgive me  
Please send me an angel

[chorus:]  
Black hole wisdom  
Who did I pray to?  
You never listened  
Why can't you say  
Where were you all my wordly life?  
Why can't you say  
Show me the way  
To salvation day

This might be the last chance  
For me to make my humble stance  
And offer my sacrifice

I've come to join you  
Got to find a way through to you  
Gimme a little piece of advice

Don't lead me into temptation  
It's time for the revelation  
Now I realise

[bridge]

Till salvation day  
Till salvation day  
Till salvation day
