

# Avicii, Touch Me

[Verse 1]

When you feel me up against your bones  
Now don't you tell me to leave you alone  
Now don't you tell me, now don't you tell me  
I wear the crown coz I'm the one  
To be anointed by you touch  
Oh how you heal me, oh how you heal me

[Chorus]

I want you to touch me (use me like you gonna do), touch me (do me like you're gonna do), touch me  
I want you to touch me (use me like you gonna do), touch me (do me like you're gonna do), touch me

[Verse 2]

Said you want it, baby (said you want it, baby)  
What you gonna do  
How you gonna please me  
What you gonna do (what you gonna do)  
I just want, I want you to  
Said you want it, baby  
I'm starving here for you, what you gonna feed me  
What you wanna do, I want you, I want you

[Verse 3]

When you feel me up against your bones  
Now don't you tell me to leave you alone  
Now don't you tell me, now don't you tell me  
I wear the crown coz I'm the one  
To be anointed by you touch  
Oh how you heal me, oh how you heal me

[Chorus]

I want you to touch me (use me like you gonna do), touch me (do me like you're gonna do), touch me  
I want you to touch me (use me like you gonna do), touch me (do me like you're gonna do), touch me

[Outro]

I want you to touch me (use me like you gonna do)  
I want you to touch me  
I want you to touch me  
I want you to touch me  
I want you, I want you to touch me  
Touch me  
I want you to touch me  
Touch me
