

Axwell & Ingrosso, I Love You (ft. Kid Ink)

I love you
Even though I don't like you right now
I want you
Even though you keep breaking me down
We got really highs, really low lows
But I still love you
Even though I don't like you right now

I was tryna save us
But you got me looking like the villain
I had a couple mixed drinks
Now, I got a couple mixed feelings
I love it /2x
You know just how to fit in that dress, than
I don't like it /2x
Whis they had a button for your Instagram pic
We argue about this and that when you say you need a different address
Break up to make up
Hit the mattress
Wake up and you don't remember half of the whole lotta games that we played
I ain't afraid to dance
How you own me a favor
As long as I

I love you
Even though I don't like you right now
I want you
Even though you keep breaking me down
We got really highs, really low lows
But I still love you
Even though I don't like you right now

I love you
I want you
/2x
Even though I don't like you right now

You ain't gotta say nothing /2x
Already know why you tripping
And I had nothing to do with them bitches
So you ain't gonna say nothing
6 inch heel when she bust in
Shouldn've seen my face
We she rushed in
Throwing purses, make-up and brushes

I can't keep is aside
Loving with caution, rushing
No I can't see you tonioght
But 2am I might be calling, calling, cos I

I love you
Even though I don't like you right now
I want you
Even though you keep breaking me down
We got really highs, really low lows
But I still love you
Even though I don't like you right now

I love you
I want you
/2x
Even though I don't like you right now
