

# Axxis, Love Doesn't Know Any Distance

The day is gone - tears in your eyes  
Now I know what I never realized  
You're alone and I'm far away  
I hear your voice - calling me day by day  
Day by day  
From show to show - from town to town  
There's no rest - sometimes I feel bound  
Ups and downs all the way  
That put our love to the test everyday  
I want you - you want me - dreams come true  
I want you - you want me - dreams come true  
I keep on waiting for the day  
We will live together  
Believe me when I say...  
...that love doesn't know any distance  
I'm longing for a place with you  
Believe in me - our dreams will come true  
Now I try to build up what I'm aiming for  
Please be patient - I don't want anymore  
I want you - you want me - dreams come true  
I want you - you want me - dreams come true  
I keep on waiting for the day  
We will live together  
Believe me when I say...  
...that love doesn't know any distance  
At any time and any place  
I feel your love - I see your smiling face  
trying to understand...  
...that love doesn't know any distance  
I want you - You want me - dreams come true
