

# Axxis, My Eyes

My eyes can see but I feel blind  
So many tears inside  
Obscure and confusing  
Last night - love was feeling right  
And now you wanna go  
Why do you wanna leave me?  
I wonder why - I haven't seen a sign  
Is there a chance like stars to realign

Chorus:  
So why won't you stay together  
Now believe in my endeavor  
To save the world for you and me  
So why won't you say: no never  
My love will last forever  
Stay - do believe in what I say:  
Our love will find a way - I pray

My eyes can see but I feel blind  
Can't look inside your mind  
How can I look behind?  
My tears - the bleeding of my heart  
Will tear my world apart  
How could I live without you?

Chorus:  
So why won't you stay together  
Now believe in my endeavor  
Stay - do believe in what I say:  
Someday our love will find a way  
Why won't you say: no never  
My love will last forever  
What does it take to make you see?  
You're my fate, my destiny  
My only one

Solo

No words - no chance for a reply  
I really wonder why that's how you gonna treat me

Chorus:  
So why  
So why won't you stay together  
Now believe in my endeavor  
To save the world for you and me  
So why won't you say: no never  
My love will last forever  
Stay - do believe in what I say:  
Someday our love will find a way
