

# Axxis, We Are the World

Good days are gone - and I don't really know  
How could I save you?  
All that's left - is a mandolin  
To play and cry and I sing  
Oh, my Helena - put your hands in mine  
This world is not in harmony - what happens is a crime

Chorus:

But we got nothing to fear - we are the world  
Together we can change our future now  
Oh, we got nothing to fear - we are the world  
Burn down these walls of sorrow - let's go!  
We are the world

Days of fight - I don't wanna hide  
I'll be a savior  
Come outside - together we are strong  
We'll get along and I sing  
Oh, my Helena - let's play your mandolin  
Hope someday, in this land, again the sun will shine

Chorus:

Cause we got nothing to fear - we are the world  
Together we can change our future now  
Oh, we got nothing to fear - we are the world  
Burn down these walls of sorrow - let's go!  
We are the world

Solo

Chorus:

Oh, we got nothing to fear - we are the world  
Take my hand, take my hand tonight  
Oh, we got nothing to fear - we are the world  
Together we can change our future now  
Oh, we got nothing to fear - we are the world  
Burn down these walls of sorrow - let's go!  
We are the world
