

# Azn Dreamers, Heaven By Your Side

You and I  
Cannot hide  
The love we feel inside  
The words we need to say  
I feel that I  
Have always walked alone  
But now that you're here with me  
There'll always be  
A place that I can go

And suddenly our destiny has started to unfold  
When you're next to me  
I can see  
The greatest story love has ever told  
Now my life is blessed with the love of an angel  
How can it be true?  
Somebody to keep the dream alive  
The dream I found in you  
I always thought that love would be the strangest thing to me  
But when we touch  
I realize  
That I've found my place in heaven by your side

I could fly  
When you smile  
I'd walk a thousand miles  
To hear you call my name  
And now that I  
Have finally found the one  
Who will be there for me  
Eternally  
My everlasting sun

Suddenly our destiny has started to unfold  
When you're next to me  
I can see  
The greatest story love has ever told  
Now my life is blessed with the love of an angel  
How can it be true?  
Somebody to keep the dream alive  
The dream I found in you  
I always thought that love would be the strangest thing to me  
But when we touch  
I realize  
That I've found my place in heaven by your side

That I've found my place in heaven by your side  
Heaven by your side, heaven by your side, heaven by your side

And when you're next to me  
I can see  
The greatest story love has ever told  
Now my life is blessed by an angel  
How can it be true?  
Somebody to keep the dream alive  
The dream I found in you  
I always thought that love would be the strangest thing to me  
But when we touch  
I realize  
That I've found my place in heaven by your side

Now my life is blessed by an angel  
Heaven by your side  
Somebody to keep the dream alive

The dream I found in you  
I always thought that love would be the strangest thing to me  
But when we touch  
I realize  
That I've found my place in heaven by your side
