B.B. King, I Need You Baby

Oh I need you baby Yes I need you baby Oh I need you baby Come on back home to me I'll make it all up to you, woman Just you wait around and see

I was wrong baby
I thought I was having fun
I know I was wrong baby
I thought I was having fun
Yes I was young and foolish
I didn't know you was the one

Now I've settled down baby And I know I'll treat you right Oh I've settled down baby And I know I'll treat you right Yes, come on home now baby I want you to come on home tonight

Oh I need you baby Yes I need you baby Well I need you woman I need a good woman around Every night about this time baby My love comes tumbling down
