Babyface, Every Little Step

Written by I.a. reid, babyface (1988) Performed by bobby brown

I can't sleep at night
I toss and turn
Listenin' for the telephone
But when I get your call I'm all choked up
Can't believe you called my home
And as a matter of fact it blows my mind
You would even talk to me
Because a girl like you is like a dream come true
A real life fantasy

No matter what your friends try to tell you We were made to fall in love And we will be together, any kind of weather It's like that, it's like that, girl

Every little step I take, you will be there Every little step I make, we'll be together Every little step I take, you will be there Every little step I make, we'll be together

I can't think too straight, I'm all confused You must've put a thing on me Because there are no words that can explain I'm living in ecstasy And you can best believe I've got your back You never have to feel no pain Because I dedicate my life for you You never have to love again

No matter what your friends try to tell you We were made to fall in love We'll always be together, any kind of weather It's like that, it's like that

Hook 2 times

No matter what your friends try to tell you We were made to fall in love And we will be together, any kind of weather It's like that, it's like that

Hook 3 times
