

Backstreet Boys, all of your life

Hey
Yeah, yeah
I wanna know
Can we spend this life together
Be a shield from rain and weather
Tell me can I
Baby tell me can I be your man
Lets be lovers (be lovers)
Girl I promise to be faithful
True and honest forever
I know you been hurt
But you really need to give us a chance
Cuz
You need love
Please dont change the way you are
Soon you'll live within my heart
You deserve it, you know it
You've been searching for it all of your life
You need love
Dont be scared to try again
You can rest upon a chance
And Ill hold you, Ill save you
Youve been searching for it all of your life
You need love (you need love)
I need to know
Can I be the one you trust
Be your friend Ill give you all
All of the things you dream of
Tell me can I be your man
Hole your heart
Theres a wound I wanna heal
If you need me Ill be here
Here to fix what broke
Let me change the life you live
You need love
Please dont change the way you are
Soon you'll live within my heart
You deserve it, you know it
You've been searching for it all of your life
You need love
Dont be scared to try again
You can rest upon a chance
