By My Side

Tonight I saw an eclipse of your smile

Within my own reflection on you look

So beautiful then

A tear ran down my face

And all my memories erase

Oh, why you have to leave my side

Oh why do all the rivers flow into the ocean

And why does all the love in the world

comes strait from the heart

And why does all the pain I feel

come from deep inside

Oh all those questions

I could have answered

If you were were by my side

Something made me look at you

Something made me do what I had to do, girl

Something made me talk to you

Something made me do what I should do

I want you by my side

(I want you by my side, I want you by my side)

Now everyday the pain I feel

Slowly fades away

And all the memories of you and me

Are always here to stay

What I'm asking girl is one more chance

To let me in your life

Oh could if you give me one more chance

Than I could be right by your side
