## Bad Things, Caught Inside

reach inside your mind
cause we don't ask for much
dream it's beautiful sleep
and we don't ask for much at all
its heavy on my heart
when you gonna start it's another world
caught in between all the lies
you run
you're spun around

why did you wait so long when were you planning on saying fear that might be lost that you were after it all along when says you need a plain at all you had it all we had it all

caught inside getting real coincide with the fear step outside before the down before you're gone

somebody's road to roam is another man's home a trip you hold you hold too close too close for comfort

why did you wait so long when were you planning on saying fear that might be lost that you were after it all along when says you need a plain at all you had it all we had it all

caught inside getting real coincide with the fear step outside before the down before you're gone

why make it all bigger why make it up why make it all bigger why make it up
