

# Bananarama, Got A Thing For You

You, you make me come alive  
Each time I close my eyes  
You take up all my time  
My every thoughts of you

(bridge)

Tell me why  
I got a thing for you, a thing for you  
Do you mind if I get with you, get with you, baby

(chorus)

I got I got a thing for you, my baby  
Tell me can I get with you now baby  
I just can't live without you

I got I got a thing for you, my baby  
Tell me can I get with you now baby  
I just can't live without you

Feel your body close to mine  
Each time I close my eyes  
I feel so good tonight  
You make me want to cry

(bridge)

(chorus)

No, no matter what I do  
I cannot help myself  
I cannot stop from falling  
No, no matter what I do  
You're my everything  
I just can't live without you

(chorus x 2)
