

Bananarama, Only Your Love

Angel divine, with you by my side
I can do anything I want to
I'll sacrifice, for you I'd lay down my life
'Cause I was alone without you
We all need somebody
You know I need somebody
No one has to feel alone
We all need some love
You know I need your love
To break these chains around my soul
Only your love can free me
Only your love can ease me
Only your love, I need it
Only your love
Never let me go
Let me go, let me go, let me go
Never let me go
Let me go, let me go, let me go
Never let me go
Let me go, let me go, let me go
Never let me go
Let me go, let me go
Heat of the flame that burns in your name
Got to, got to, got to believe it
Angel of love, descend from above
Come on and shine your light on me
We all need somebody
You know I need somebody
No one has to feel alone
We all need some love
You know I need your love
To break these chains around my soul
Only your love can free me
Only your love can ease me
Only your love, I need it
Only your love
Never let me go
Let me go, let me go, let me go
Never let me go
Let me go, let me go, let me go
Never let me go
Let me go, let me go, let me go
Never let me go
Let me go, let me go
We all need somebody
You know I need somebody
No one has to feel alone
We all need some love
You know I need your love
To break these chains around my soul
