

Bananarama, Prove Your Love

Prove your love
Come on and make it happen
Prove your love
Show a little passion

Prove your love
Come on and make it happen
Prove your love
Show a little passion

How did it get to this
I've fallen under your kiss
Tell me what is on your mind
Maybe tonight we'll find

I gotta know
I gotta feel
I gotta say hey
This is for real

Prove your love
Come on and make it happen
Prove your love
Show a little passion

Some things were meant to be
Like you were meant for me
Why don't you make your move
I'll leave it up to you

I gotta know
I gotta feel
I gotta say hey
This is for real

Prove your love
Come on and make it happen
Prove your love
Show a little passion

Prove your love
Come on and make it happen
Prove your love
Show a little passion

I gotta know
I gotta feel
I gotta say hey
This is for real

Prove your love
Come on and make it happen
Prove your love
Show a little passion

Prove your love
Come on and make it happen
Prove your love
Show a little passion
