

# Bananarama, Waterfall

I just took a bite  
From your sweet mouth  
Starburst bright  
Falling to the ground  
The grass is green  
Beneath my feet  
Can you feel  
(chorus)  
It's like a waterfall coming down  
Your love it just shiners through me like the sun

I can feel your touch  
On me skin tight  
Slip and slide  
With me through the night  
Floating free  
(chorus)  
Your kisses fall like flowers over me  
(chorus)
