

Bananarama, You And I

You and I
Lips on mine
We ain't twined
You and I

? next to me
Boy you make me nervous
Unknown pleasures crossing your mind
? to
Know how much you want to
Take this fast love creeping up behind

But this moment might fade away
And it's making my heart ache

(chorus)
You and I
One step away from heaven
Feel your lips on mine
And my heart race
Cause we ain't twined
Nothing can come close to this
And you and I
Right this way together for all time

Innocent, touching me
Feelings take the surface
Midnight madness won't leave me alone
Everytime you cover me
Touch me like an angel
Take me up to paradise

I'm not falling in love with you
I'm not scared to see it through

(chorus x 2)

Eternity (x 3)

(chorus x 2)

You and I (x 2)
