Band, The, The Lights

Band, The
Miscellaneous
The Lights
There was something strange
In the sky tonight
I was left standing
With three moons shining

Chorus:

Just on the outskirts of civilization Just on the outskirts of civilization

Indians have always seen the lights Since the beginning of time They drew pictures on the rocks Of our relatives from the sky

Just on the outskirts of civilization Catch the light Just on the outskirts of civilization Where the sun goes at night

Chorus

I hear no longer
The song of the women
I hear no longer
The cry of the bird
I see no more
The white smoke rising
Only the low hum from the lights is still heard

Chorus (2 times)
