

# Bastille, Bite Down (ft. HAIM)

You don't have to look any further  
I've been waiting here for you all time  
You don't have to look any further  
You're missing what is right before your eyes  
No one's gonna stick the pieces  
together for you, together for you  
no one's gonna stick the pieces  
together for you, together for you

You got your claws buried deep  
Bite down, bite down  
into me  
bite down, bite down  
into me  
you're gonna sink your teeth before I disappear  
bite down, bite down  
into me  
I'm not gonna try /3x  
No, no, no!  
I'm not gonna try

I'm trying to keep my composure  
But everytime you shake me down I die  
You feel lucky looking me over  
I'm trying waving my arms at the back of the line  
No one's gonna stick the pieces  
together for you, together for you  
no one's gonna stick the pieces  
together for you, together for you  
Bite down, bite down  
into me  
bite down, bite down  
into me  
you're gonna sink your teeth before I disappear  
bite down, bite down  
into me  
Cause there are only so many times  
That I can come on running  
And there are only so many times  
That I can come on running for you  
Bite down, bite down  
into me  
bite down, bite down  
into me  
you're gonna sink your teeth before I disappear  
bite down, bite down  
into me  
Bite down, bite down  
into me  
bite down, bite down  
into me  
you're gonna sink your teeth before I disappear  
bite down, bite down  
into me  
I'm not gonna try /3x  
No, no, no!  
I'm not gonna try
