

# Bazzi, 3:15

[Verse 1]

Laying next to you, I got a flight in the morning  
Got me questioning what I think is important  
I can't even lie, think of you when I'm with her  
Look me in my eye, tell me that you feel different  
Drove two hours just to stay the night with you  
Haven't seen you in a year, but I still get you  
Hurts to see you laugh 'cause I know I'll fucking miss that  
How could I forget that?

[Chorus]

You made me feel alive  
Forget them other bitches, I will put 'em to the side  
Girls in L.A. couldn't be more dry  
You're so money, baby, you ain't even have to try  
Now I'm runnin' with you 'round East Lansing  
Tito's in your dorm, we're dancing  
It's a quarter after three  
Sayin' everything we mean

[Verse 2]

Girl, it's hard to see me go so fast, yeah, I get that  
Times that we have, so wild, can't forget that  
Now I'm on a flight in my feels, thinkin' 'bout you  
Hope you know you fire, fuck anyone who doubts you  
Life out in Cali has been great, I'm committed  
You the only thing that makes me wish things were different  
I might fly you out, get your ass on a one-way  
If I had it my way...

[Chorus]

You made me feel alive  
Forget them other bitches, I will put 'em to the side  
Girls in L.A. couldn't be more dry  
You're so money, baby, you ain't even have to try  
Now I'm runnin' with you 'round East Lansing  
Tito's in your dorm, we're dancing  
It's a quarter after three  
Sayin' everything we mean

[Bridge]

Maybe I'm stuck in the past, girl  
Not willing to let it all go  
You can't ignore the fact, baby

[Chorus]

You made me feel alive  
Forget them other bitches, I will put 'em to the side  
Girls in L.A. couldn't be more dry  
You're so money, baby, you ain't even have to try  
Now I'm runnin' with you 'round East Lansing  
Tito's in your dorm, we're dancing  
It's a quarter after three  
Sayin' everything we mean

[Outro]

For a moment, I was feeling like I had you  
Didn't wanna leave, I had to  
It's a quarter after three  
Saying everything we mean
