

Bazzi, Sober

[Verse 1]

I don't smoke cigarettes
But I know you like to
So I face an entire pack
Just to be there with you
And I never fall for girls
But you got me tripping
Running your hand through my curls
All my worries missin'

[Pre-Chorus]

Don't know if it's the Hennessy
That's got you in your honesty
Oh, I just hope you still mean what you say
When the sun comes up
Oh, I hope it's not the alcohol
That makes me think I want it all
Oh, I just hope I still mean what I say
When the night is up

[Chorus]

Will I want you when I'm sober?
Sober, sober
Will I want you when it's over?
Over, over
Will you want me when you're sober?
Sober, sober
Will you want me when it's over?
Over, over

[Verse 2]

Late night up in the hills
Wish this would last forever
Thinking I want this real -
Feelings can't be misjudged

[Pre-Chorus]

Don't know if it's the Hennessy
That's got you in your honesty
Oh, I just hope you still mean what you say
When the sun comes up
Oh, I hope it's not the alcohol
That makes me think I want it all
Oh, I just hope I still mean what I say
When the night is up

[Chorus]

Will I want you when I'm sober?
Sober, sober
Will I want you when it's over?
Over, over
Will you want me when you're sober?
Sober, sober
Will you want me when it's over?
Over, over

[Bridge]

Morning comes
Will you still want me to stay?
To stay, to stay

[Chorus]

Will I want you when I'm sober?
Sober, sober
Will I want you when it's over?
Over, over
Will you want me when you're sober?
Sober, sober
Will you want me when it's over?
Over, over

[Outro]
Sober
