

Bebe Rexha, Break My Heart Myself (feat. Travis

Hello, my nam eis Stevie
Actually i'm lyin' it's really Babe
It's the meds, they make me really sleepy
Klonopin; my friend
She numbs the feelin'

My doctor upped my dosage
My mom felt bad sos he sent me roses
Without it
I feel really hopeless
And 5.7 of Americans know it

I am livin' and dreamin'
Trying to stay even

No i don't need your help
To make me sick, to make me ill
I don;t need anybody else
Cause i can break my heart myself

Don't need your help
Getting off of this carousel
I don't need aybody else
Cause i can break my heart myslef

Today went really well
I dodn;t wake up in a panic spell
It was fine
Even though i fell deeper and deeper
Into a manic hell

I am livin' and dreamin'
Trying to stay even
I am draining for no reason
Apoligize , no feelings

No i don't need your help
To make me sick, to make me ill
I don;t need anybody else
Cause i can break my heart myself

Don't need your help
Getting off of this carousel
I don't need aybody else
Cause i can break my heart myslef

Cause i can break my heart myslef

There's a jumper on
Hollywood and the 101
And i am scared
I could be that one but i am not

Cause i can break my heart myslef

i don't need your help
To make me sick, to make me ill
I don;t need anybody else
Cause i can break my heart myself

I Don't need your help
Getting off of this carousel
I don't need aybody else
Cause i can break my heart myslef
