

# Bebe Rexha, Grace

[Verse 1]

I knew from the moment that I met you, this wasn't right  
But I couldn't leave you 'cause you treated me so damn right  
There was nothing wrong with you  
The truth is you're a damn good guy  
But I knew from the moment that I met you, this wasn't right

[Pre-Chorus]

And you had money and cars, look like a star  
You loved me so good, I could cry  
Bought me roses and rings, such beautiful things  
But I was taught never to lie

[Chorus]

I hate to see the look on your face  
I wish I could make myself stay  
But our hearts don't live in the same space  
So tell me how to break yours with grace  
(So tell me how to break yours with grace)

[Verse 2]

I knew from the moment that I left you, you'd be alright  
You're gonna find another lover, one who doesn't waste your time  
But every time you look at me, my body says, "One last night"  
I swear I wouldn't leave with you  
But I just came to say goodbye

[Pre-Chorus]

And you had money and cars, look like a star  
You loved me so good, I could cry  
Bought me roses and rings, such beautiful things  
But I was taught never to lie

[Chorus]

I hate to see the look on your face  
I wish I could make myself stay  
But our hearts don't live in the same space  
So tell me how to break yours with grace

[Bridge]

-Violin instrumental-

[Chorus]

I hate to see the look on your face  
I wish I could make myself stay  
But our hearts don't live in the same space  
So tell me how to break yours with grace  
(So tell me how to break yours with grace)
