

Becky Hill, Last Time

Baby now you're back again
Back into my life
Hit a lot of turbulence
You know
One to many arguments
I have to let go
Forgive you i know

You say you wanna try
And i see you change
Before my eyes
Into somebody noe

So

No empty promises
I need to know it's worth it
If gonna go there with you

This is the last time
Now you're mine
The last tume falling in love
After the lasr fight
I realised i am not giving you up
