

# Becky Hill, Never Be Alone - feat. Sonny Fodera

We've been stuck in the silence  
Watching life passing us by  
Slowly we've lost our minds somewhere inside these walls

Did you forget the feeling  
Tryna find it staring at the ceiling  
Slowly we've lost our minds somewhere inside these walls

I ain't seen your face  
We ain't spoke for days  
Let me lift you up  
To restore your faith

It's all that wanna do  
If you let me

I wanna surround you with love  
Can you remember that rush?  
I know it's been hard but now you'll never be alone

I wanna surround you with love  
Nothing else matters but us  
I know it's been hard but now you'll never be alone

I ain't seen your face  
We ain't spoke for days  
Let me lift you up  
To restore your faith

It's all that I wanna do  
If you let me

There's no time wait  
We can throw some shapes  
If you're feeling down  
Come & walk this way
