

BeFour, How Do You Do

Chorus:

How do you do
You like me and I like you
Come and take me by the hand
Cause I wanna be your friend
How do you do
You like me and I like you
Say how do you do you do
How do you do you do
When I'm going on a summer holiday
And my plane is to a place so far away
I'm so happy cause its time to celebrate
Or I feel like I can dance
Different people all around the globe dont know
What you say when there is a tray i wont show
There the risk you cant communicate
Everybody understand

Chorus 2x

Its so easy when you want to make a friend
When the sun is shining in a distance now
Theres a certain feeling around your mind
And you feel like you can dance
When you go into the south of Africa
To America or to Australia
You see people of a color than don't hide
Everybody understand

Chorus 2x

How do you do
You like me and I like you
Come and take me by the hand
Cause I wanna be your friend
How do you do
You like me and I like you
Say how do you do you do
How do you do you do
