

Beyoncé, All Night

I found the truth beneath your lies
The true love never has to hide
Trade your broken wings for mine
I've seen your scars and kissed your crimes

So many people that I know, they're just tryna touch ya
Kiss up and rub up and feel up
Kiss up and rub up and feel up on ya
Give you some time to prove that I can trust ya again
I'm gonna kiss up and rub up and feel up
Kiss up and rub up and feel up on ya

All night long,
Good love
All night long
Sweet love
All night long
Love
All night long

All I wanna
Be no other
We together
I remember
Sweet love
All night long

My love was stronger than your pride
Under your darkness I'm your light
You get deep you touch my mind
Baptize your tears and dry your eyes

So many people I know that they just trying to touch you
Kiss up and rub up and feel up
Kiss up and rub up and feel up on ya
Give you some time to prove that I can trust ya again
I'm gonna kiss up and rub up and feel up
Kiss up and rub up and feel up on ya

All night long,
Good love
All night long
Sweet love
All night long
Love
All night long

All I wanna
Be no other
We together
I remember
Sweet love
All night long
