

# Beyoncé, Kick Him Out

Kick Him Out  
Oh oh oh, ooh  
I know that you treat me right  
But still, I think I gotta make you my next -Ex  
I'm on to the next  
And I think you're nice  
But I saw something else I like  
And I think I gotta make you my next -Ex  
I'm on to the next  
Oh....  
Today when i wake up  
You didn't look the same as last night  
And it just don't feel right anymore  
I think that we should break up  
There's no reason to make up  
I won't fight  
I'm just tired, and I need a change  
Sorry, boy, but you got me bored  
And something's catching my eye  
I was only satisfied for a little while  
I gotta switch him out  
Switch him out  
Switch him out  
Switch him out  
Kick him out  
Kick him out  
Kick him out  
Kick him out  
Oh oh oh, ooh  
I know that you treat me right  
But still, I think I gotta make you my next -Ex  
I'm on to the next  
And I think you're nice  
But I saw something else that I like  
I really think I gotta make you my next -Ex  
I'm on to the next  
Oh oh oh....  
You call me too frequently  
I thought it was so sweet in the beginning  
And now, you're too clingy for me  
You don't put the seat down  
You don't clean the house how I like it  
Triffin!  
That's reason enough-  
You're time's expired  
Sorry, boy, but you got me bored  
I gotta move around  
If i ain't got a ring by now  
That means I'm not tied down  
I gotta switch him out  
Switch him out  
Switch him out  
Switch him out  
Kick him out  
Kick him out  
Kick him out  
Kick him out  
Oh oh oh, oh  
I know that you treat me right  
But still, I think I gotta make you my next -Ex  
The next -Ex  
I'm on to the next  
To the next  
And I think you're nice

But I saw something else that I like  
I really think I gotta make you my next -Ex  
I'm on to the next  
Oh...  
I gotta switch him out  
Switch him out  
Switch him out  
Switch him out  
Kick him out  
Kick him out  
Kick him out  
Kick him out  
Oh, ooh...  
I know that you treat me right  
But still, I think I gotta make you my next -Ex  
I'm on to the next  
And I think you're nice  
But still, I see something else that I like  
I really think I gotta make you my next -Ex  
I'm on to the next
