

Beyond The Black, Hallelujah

Drown into these hands of fate
Without a sound and celebrate
Shining like the brightest skies
Cross your hearts and keep the faith
Look into the mirror ball
Lose everything and take it all
Sing hallelujah and encore
Forevermore

We run
Into the unknown
Far from
What they call life
Somewhere
Must be another aim

One day
We'll come together
Under
A beautiful sign
Every dream
Is one night away

Sing! Hallelujah
Sing! Hallelujah
Sing! Hallelujah
Sacrifice the night
Sing! Hallelujah
Sing! Hallelujah
Sing! Hallelujah
Forevermore

Meet me
Beyond in the twilight
Million
Lifetimes ago
Then our
Imprisoned minds unfold

Night flight
Across endless meadows
Bonfires
Arrows and bows
We found us and it feels like home

Sing! Hallelujah
Sing! Hallelujah
Sing! Hallelujah
Sacrifice the night
Sing! Hallelujah
Sing! Hallelujah
Sing! Hallelujah
Forevermore

Look into the mirror ball
Lose everything and take it all
Sing hallelujah and encore
Forevermore
