

# Beyond The Black, In the Shadows

Now we're standing here together  
At the crystal borderline  
All my memories are shattered  
Nothing's left of what was mine  
I'm tryin' to hold you  
But you slip away  
A candle cannot burn forever  
To whom am I to pray

Chorus:

Up we rise | Into the night  
We'll never die | In the shadows  
We can break | Out of these days  
Darkness will blaze | In the shadows  
Our kingdom will come  
When our dreams can grow wild  
Up we rise | Into the night  
We'll never die | In the shadows

It's so hard to kill the demons  
When they live inside your heart  
Don't give up to find your fortune  
When you don't know where to start  
So come here and take me  
I'm already gone  
In a second life beside you  
Is where I want to belong

Chorus.

Up we rise | Up we rise | In the shadows

Chorus.
