

# Big Head Todd And The Monsters, Engine Light

Yes, I want to get ya but I can't y'all  
'Till she gets around to what she came for  
If you're into the sound then get your dance on  
One you can't cut it with a chainsaw  
I just want you next to me

Come on engine light in your heart  
Turn on for me  
Or at least flicker slowly  
Love is gonna sound the alarm  
You are my one  
You are my only

Yes, I wanna catch her but she breeze by  
Chasin' the wind and the winter sky  
Engine in dreams, I'm pushing by  
Droppin' my keys I'll let you take my ride  
I just want you kissin' me

Come on engine light in your heart  
Turn on for me  
Or at least flicker slowly  
Love is gonna sound the alarm  
You are my one  
You are my only

I know what you said but you can't mean by  
Trouble with the man he ain't rich now  
He's a serious dude he ain't Rip Torn  
Prayin' for rain he get a hailstorm  
I just want you messin' with me

Come on engine light in your heart  
Turn on for me  
Or at least flicker slowly  
Love is gonna sound the alarm  
You are my one  
You are my only
