

# Big Head Todd And The Monsters, Love Transmission

I wanna drive it on over to you.  
I wanna take you there but the time ain't right.  
Can't sail it on over to you.  
I wanna glide it home but the wind ain't right.  
Try to find a love that's strong and true, I wanna to fly ward now but the sun won't shine.

Love transmission gonna grind them gears I'm gonna burn it out.  
Love transmission down low engineer gonna shake it out.  
Love transmission it's a new frontier gonna work it out.  
Gonna make them changes.

I'm an outsider with the gold clipped wings.  
I wanna shine for you but my battery died.  
A lone blacksider but without the swing.  
I wanna read to you by acetylene light.

Love transmission gonna grind them gears I'm gonna burn it out.  
Love transmission down low engineer gonna shake it out.  
Love transmission it's a new frontier gonna work it out.  
Gonna make them changes.

May I reawaken as your cup of tea.  
Gonna satisfy you like the deep blue sea.  
Reincarnated as love poetry.  
Gonna sink into you like a submarine.

Love transmission gonna grind them gears I'm gonna burn it out.  
Love transmission down low engineer gonna shake it out.  
Love transmission it's a new frontier gonna work it out.  
Gonna make them changes.
