

Big Head Todd And The Monsters, Moose Song

I have seen, babe I haven't heard
Did someone put you down?
Is your lover just another scheme
That never did work out?

When it hurts, when it hurts inside
Why can't you see it's only you he's thinking of?
Who ever told you it's your right to be alive?
If your heart is breaking, you are lucky to be in love

You keep claiming that you paid too high a price
You want something for your own
So worried about the little change he puts into your pocket
You can't see that he's dead and gone

When it hurts, when it hurts inside
Why can't you see it's only you he's thinking of?
Who ever told you it's your right to be alive?
If your heart is breaking, you are lucky to be in love

Baby, get into your car
Turn and turn and turn around
Yeah, the road it ain't inside you
You need some help to get you there

When it hurts, when it hurts inside
Why can't you see it's only you he's thinking of?
Who ever told you it's your right to be alive?
If your heart is breaking, you are lucky to be in --

When it hurts, when it hurts inside
Why can't you see it's only you he's thinking of?
Who ever told you it's your right to be alive?
If your heart is aching, baby you're just lucky to be in love
