Big Head Todd And The Monsters, Salvation

If ever you are walkin' down the lonely street No one to lean on No one to help you on Cars and buildings so high Disparity so wide The only dreams we can see Are the ones on the t.v. If you need somebody, If you need, If you grieve, I'm your sole salvation.

The city is on fire
Can't you see these streets emptied in ashes, witless
made afraid
made expatriots
made youth of idle science and unbelief
so far from my brother
passin' down the street.
