

# Big Head Todd And The Monsters, Spanish Highway

We'll never know the reasons  
Things have ended up this way  
You had to turn the page  
But I'm still writing of my love for you  
On and on,  
On and on

Just one kiss and then you knew  
Still you left me without a trace  
Where are you tonight?  
Do you feel me wanting you,  
Desire, makes my heart ache,  
Makes my heart ache

Empty runway,  
Now I know that there's life after you, over you  
Spanish highway, driving back to what belongs to you  
Longs for you

The first time that I fell for you  
Your eyes read me the book of your heart  
Speaking in recurring dreams,  
Visions and mysteries of how,  
You are my star

Empty runway,  
Now I know that there's life after you, over you  
Spanish highway, driving back to what belongs to you  
Longs for you

Hey now my light is shining on  
Every cloud is gone  
Hey, everything is singing of your love for me  
On and on...

Empty runway,  
Now I know that there's life after you, over you  
Spanish highway, driving back to what belongs to you  
Longs for you
