

# Big L, Devil's Son

[Intro w/ Nas samples:]

Ayo Showbiz, I had this bugged out dream last night that I was the Devil's son, B, I was doing some ill shit...

"When I was 12, I went to hell for snuffing Jesus" [x3]  
"I'm waving automatic guns at nuns"

L's a rebel, on a higher level, go get a shovel  
Cause I'm the only son of the motherfucking devil  
It's a fact I'm living foul, black  
Niggas should have known I was sick from the shit I did a while back  
Cause being bad I couldn't stop  
When I was in pre-school, I beat a kid to death with a wooden block  
Faggot niggas I was back slapping  
I realized that every time I got mad something bad happened  
A nigga hit me with a can of beer, then he ran in fear  
Later they found him hanging from a chandelier  
Enemies I be bucking quick  
My moms know who I am because she know who she was fucking with  
On my skull the 666, no tricks  
When I catch fits, my mom picks up the crucifix  
And I kill chumps for the cheapest price  
I'm rolling with Satan, not Jesus Christ  
Enemies I got several done  
Big L straight from hell, the motherfucking Devil's Son

"When I was 12, I went to hell for snuffing Jesus" [x3]  
"I'm waving automatic guns at nuns"

It's Big L and I'm all about taking funds  
I'm a stone villian known for killing and raping nuns  
Ayo I even kill handicapped and crippled bitches  
Look at my scalp real close and you'll see triple sixes  
There's no doubt I'm all about a dollar  
I just signed a lifetime contract with the funeral parlor  
This kid that owed me dough, I didn't take his life  
Instead I tied him up and made him watch me rape his wife  
One nigga cold tried to diss me and that shit is risky  
The nigga took a swung but he missed me  
So I popped off mad chunks not junk  
I spit in his motherfucking face and then walked off  
Once a hottie shot me with a shottie  
I died but then I came back to life in another body  
The way I'm living is dead wrong  
I'm a devil from Hell without the tail or the red horns  
Killing is fun, I'm #1 with a gun  
Front and get done, cause you can't run from the Devil's Son

"When I was 12, I went to hell for snuffing Jesus" [x3]  
"I'm waving automatic guns at nuns"

The Big L is strictly gunplay  
I run through church and pistol-whip the priest every Sunday  
Once I put out the crazy order  
I sent niggas to kill Tone, his mom, and his baby daughter  
I'm living up to my extortion image  
I be stalking Lennox, catching more bodies than abortion clinics  
A kid tried to take L out  
Shot me with a tech, I just laughed and spit the shell out  
Next I took his gun then he dropped to his knees  
With ease I made him freeze, he begged me please not to squeeze  
But I ain't the type to bust, I just sniped a bus  
Gunclap \*bang\* Another nigga bites the dust

Shorts I'm taking none  
Misbehave and get sent to the grave by the Devil's Son

Word, Big L the motherfucking Devil's Son is definitely in effect  
Giving a shout out to all the murderers, thieves, armed robbers  
Serial killers, phychos, lunatics, crackheads, mental patients  
Mental retards, and a special shoutout to all the niggas with AIDS, peace
