## Big & Rich, Eternity

INTRO - John Legend:
I've been looking for so long to find this place I see
And I've just got to believe it's more than a dream
Seems it's time I should move on
But I hope you come with me
Till we find eternity

Doing all I can to make things better Everything I can to get things right Baby when you're me, it's a little more like Heaven Here in my mind, here in my mind

## Chorus:

I've been looking for so long to find this place I see And I've just got to believe it's more than a dream Seems it's time I should move on But I hope you come with me Till we find eternity

We just can't let this old world get us down There's too much beauty in this life It should be so perfect We shouldn't know we've made it to the other side When we make it to the other side

## Repeat Chorus

Oh you know it's got to be so beautiful Oh and everybody is so free Love, love is the only thing there is between you and me

Repeat Chorus
