## Billy Idol, Buried Alive

It's the season of the dark horse The ocean of night It's the angel of mercy Leaving you behind In this moment You ache for the cure You're pleading Save me Give me some more

There's no shelter tonight Escape from the pain There is nothing No end to this game

You're so wicked Evil and cruel It won't save you Save me From what I'm gonna do

You're just a number You're just a victim A dead man walking Buried alive

Hold out for a better hand Wait for better days You can feel it coming The fury of my rage My vengeance Will rain down on you There's no mercy Have mercy In what I'm gonna do
