

# Billy Idol, Dead On Arrival

Dead on arrival  
Well that's how they pronounced him  
But I'm out for survival  
I'm alive in this town  
It took the vital injection  
From that sweaty little girl child  
She had the blood of conviction  
I'm alive and hurtin'

And they said where did you go  
And what did you do  
Well what's gonna happen when he gets shot with love

Dead on arrival  
They thought that nothing would save me  
But I know what could break me  
Dead on arrival  
You were my death reflected  
I love to tiptoe  
That brought me into this town  
I got a vital injection  
And a gun at my head man  
From a thrill hit redhead  
That brought me into this town

Well where did you go  
(+And) What did you do  
Walked on out and he gets shot with love  
With love, with love yeh  
Yeh...

Dead on arrival  
Well that ain't a prediction  
Fact of fiction  
I'm alive in your town  
Don't try to shake me  
Don't try to break me  
I know what can save me  
They take the blood in her town  
And they said  
Where did you go  
And what did you do  
Well, what's gonna happen when he gets shot with love  
With love, with love
