

# Billy Idol, English Dream

I once had a dream  
A feeling inside  
A yearning so bad you have to shout it out  
Hey kid look at me  
You can make it real  
You can get it if you want

When I first started out  
They shut all the doors  
But I laughed at all the doors  
And I kicked them down  
Here's my energy for you  
Step into the light while you still feel young

I look in your eyes  
And I reach for your hands  
Well I'll do anything  
To make you understand  
That I'm still the seeker  
For your english dream  
Don't you give up trying

And don't you let me down

The english dream - don't let me down  
The english dream - don't let me down  
The english dream - don't let me down  
The english dream - don't let me down

I look in your eyes  
And I reach for your hands  
Well I'll do anything  
To help you understand  
That I'm still the seeker  
For your english dream  
Don't you  
Don't you give up trying  
And don't you let me down

The english dream - don't let me down  
The english dream - don't let me down  
The english dream - don't let me down  
The english dream - don't let me down
