

# Billy Idol, Wasteland

Out into the wasteland  
Out into the wasteland

No religion  
No religion, no religion at all  
No religion  
No religion, no religion at all  
No religion, no religion at all  
No religion  
No religion, no religion at all  
No religion  
No religion at all  
No religion

Emissionary man amongst the heathen  
Can't you see a modern primitive  
I came back, I'm gonna find,  
I'm gonna give religion  
When there was, no religion at all

I'm outta the wasteland  
I'm into this head man  
I'm outta the wasteland  
No religion at all  
I'm outta the wasteland  
I'm into this head man  
I'm outta the wasteland  
No religion, no religion at all

There's a man in need of resurrection  
(No religion)  
Can't you see a modern primitive  
(No religion)  
But I'm a man I need my love and  
freedom (No religion)  
When there was no freedom at all

I'm outta the wasteland  
I'm into this head man  
I'm outta the wasteland  
No religion at all  
I'm outta the wasteland  
I'm into this head man  
I'm outta the wasteland  
No religion, no religion at all

No religion  
No religion at all  
No religion  
No religion at all

In VR land  
The future of fun  
Tell me what to do  
In VR law  
Computer crime  
Um, so sublime  
A fantasy scene  
In my machine  
Give me secret of life  
Let me know, yeah, what I am  
And you know that I could get

Outta the wasteland

I'm into this head man  
I'm outta the wasteland  
No religion at all  
I'm outta the wasteland  
I'm into this head man  
I'm outta the wasteland  
No religion, no religion at all  
I'm outta the wasteland  
So far from the the deadland  
Ow, I'm outta the wasteland  
No religion, no religion yeah  
I'm outta the wasteland  
So far from the the deadland  
Yeah, I'm outta the wasteland  
No religion, no religion at all

No religion, no religion at all  
No religion  
No religion, no religion at all  
No religion  
No religion, no religion at all  
No religion  
No religion, no religion at all  
No religion at all  
No religion at all  
No religion
