

Billy Rankin, A Day In The Life

Livin' in the city
Tryin' to make it through the day
There's only one way up but you feel down
Make a firm connection
Look upon the bright side of life
Face the world with an optimistic smile
Because a day in the life is only what you make it
A day in the life is only what you give
You made tonight so why the hesitatin? a day in the life is just a laugh away, today

When you make decisions never deal with a negative mind
You will take forever to decide
Go your own direction
Put yourself at the top of the line
Leave your tribulations far behind
Because a day in the life is only what you make it
A day in the life is only what you give

You made tonight so why the hesitatin? a day in the life is just a laugh away
Today you've confidence inside
You're glad to be alive, oooh
Open up your mind, open up your eyes, why?
Because a day in the life is only what you make it
A day in the life is only what you give
You made tonight so why the hesitatin? a day in the life is just a laugh away
A day in the life is only what you make it
A day in the life is only what you give
You made tonight so why the hesitatin? a day in the life is just a laugh away, today
A day in the life
A day in the life
A day in the life
A day in the life
A day in the life
A day in the life
Ooooooh
