Billy Rankin, Never In A Million Years

Feels like only yesterday
We were so in love with one another
I guess the truth was just a dream away
You never told no lies
You never gave me no warning
But when I turned around you were gone
I still remember the days when we used to play outside
I've gotten wise to it baby
Should have known about it all along
Never in a million years
I can't take another heartache
Never in a million years
I'm gonna finish what ya started
Never, never, never in a million years
Darlin? if you want me to love you
Never in million
I did everythin? for you
Givin? in to all your funny notions
You just brought me up and let me go (let me go)
You would never lose no pride
Tellin? everybody how you used me
Now you want me to forget it all
Do you remember the days when we used to play outside
I've gotten wise to you baby
Should have known about it all along

Never in a million years
I can't take another heartache
Never in a million years
I'm gonna finish what ya started
Never, never, never in a million years
Darlin? if you want me to love you
Never in a million
Never in a million, never in a, never in a million years
Never in a million, never in a, never in a million years, million years
I still remember when we used to play outside
I've gotten wise to you baby
Should have known about it all along
Never in a million years
I can't take another heartache
Never in a million years
I'm gonna finish what ya started
Never in a million years
I can't take another heartache
Never in a million years
I'm gonna finish what ya started
Never in a million years
I can't take another heartache
Never in a million years
