## Billy Rankin, Think I'm In Love

I'm growin up too fast

I never thought it'd last another day

But

But when I try to stay

You turn away

I don't need to hide my feelin's

That just leaves my senses reelin? you're not sure you know me well

But I bet you know the answer when you tell me

Think about it, I think I'm in love

You better think about it. I think I'm in love.

Think about it, think about it, think about it all the time, all the time baby

Givin? it up, givin it up, givin up the fight

I think I'm in love

I think I'm in love (I think I'm in love)

You always look your best

It's like a constant test of my restrain

My intention's clear

But your obsessive fear is always plain

I got complications too

I don't know what to say or do

I can see them gettin? in the way

But I get so crazy when I hear you say

Think about it, I think I'm in love

You better think about it, I think I'm in love.

Think about it, think about it, think about it all the time, all the time baby

Givin? it up, givin it up, givin up the fight

I think I'm in love

I think I'm in love

I think I'm in love

I got complications too

I don't know what to say or do

I can see them gettin? in the way

But I get so crazy when I hear you say

Think about it, I think I'm in love

You better think about it, I think I'm in love.

Think about it, think about it, think about it all the time, all the time baby

Givin? it up, givin it up, givin up the fight

And I think about it, i think I'm in love

And I think about it, i think I'm in love

And I think about it, i think I'm in love

And I think about it, i think I'm in love

And I think about it......
