

# Black Sabbath, Angry Heart

I still remember how it used to be  
I thought the only thing  
That mattered was me

You always told me it was just insane  
To feel such joy while others feel pain

There's no way to change this angry heart  
Cause when love goes it will tear you apart

And it's been this way since time began  
It's a desperate search for a promised land  
And the years slip by like so much sand

So many people who are dying to live  
It tortures my heart they've got so much to give  
I never saw it as a battle before  
To win the fight  
There has to be more

And there's no way to change this angry heart  
Cause all these fears  
Will tear you apart

And it's been this way since time began  
It's an endless journey, it's the fate of man  
To live each day and never understand

And it's been this way since time began  
It's a desperate search for a master plan  
And the years slip by like water through your hands
