## Black Sabbath, Angry Heart

I still remember how it used to be I thought the only thing That mattered was me

You always told me it was just insane To feel such joy while others feel pain

There's no way to change this angry heart Cause when love goes it will tear you apart

And it's been this way since time began It's a desperate search for a promised land And the years slip by like so much sand

So many people who are dying to live It tortures my heart they've got so much to give I never saw it as a battle before To win the fight There has to be more

And there's no way to change this angry heart Cause all these fears Will tear you apart

And it's been this way since time began It's an endless journey, it's the fate of man To live each day and never understand

And it's been this way since time began It's a desperate search for a master plan And the years slip by like water through your hands
