

Black Sabbath, Dirty Women

The neon lights are shining on me again
I walk the lonely streets in search of a friend
I need a lady to help me to get through the night, through the night
If I could find one then everything would be alright
The sleepy city is dreaming the night time away
Out on the street I watch tomorrow becoming today
I see a man, he's got take away women for sale, yes for sale
Guess that's the answer, 'cause take away women don't fail
Oh dirty women, they don't mess around
Oh dirty women, they don't mess around
You've got me coming, You've got me going around
Oh dirty women, they don't mess around
Walking the streets I wonder will it ever happen
Gotta be good 'cause then everything will be OK
If I could score tonight then I will end up happy
A woman for sale is gonna help me save my day...
